

LIFESPAN

COMPOSITE ARCHITECTURAL BEAMS

HYBRID ALUMINIUM COMPOSITE BEAM

Lifespan architectural beams give you the power to design more freely and transform your outdoor space into a retreat that is uniquely yours. Lifespan beams combine cutting-edge composite engineering with a smart lightweight aluminium core to give you a stronger, more durable beam that can be used for screening, pergola cross beams, stylised cladding, or other creative outdoor projects. Enjoy the span capabilities of traditional solid beams in an improved lightweight option that helps streamline installation and provides the look of timber in low-maintenance composite.

- An advanced aluminium core gives the beam the span capability of much heavier, solid beams at a significantly lighter weight.
- The low-maintenance, eco-friendly composite coating offers long-term durability, weather resistance, and protection from insects.
- Built-in UV protection ensures long-lasting beauty.
- Installation is more efficient and cost-effective thanks to the lighter weight and greater strength of the beam.
- A range of natural colours and finishes are available to provide the beautiful look of timber without the upkeep hassles of wood.
- Better design is made possible thanks to the versatility and reliability of an advanced architectural beam.

A PRODUCT BY **EVA-LAST**
INSPIRED BY NATURE. DESIGNED FOR LIFE.

TAKE HOME THE BENEFITS

DESIGN VERSATILITY
Architectural beams offer a diverse range of aesthetic applications

LIGHTWEIGHT DESIGN
Specialised aluminium core for easier installation at height

LOW-MAINTENANCE
The look of timber beams without the upkeep

INCREASED SPAN
Reinforced composite beam with built-in aluminium core

DECAY RESISTANT
Resists biodegradation, corrosion, insects, & harsh weather

FADE RESISTANT
Built-in UV protection for beautiful durability

TRI-EXTRUDED ALUMINIUM COMPOSITE

- 1 Aluminium core
- 2 Engineered flexible adhesive
- 3 Outer protective composite coating (Eva-tech surface technology)

SCREENING KIT

Simple, easy to install turnkey Screening Kit comprising Lifespan Beams with a concealed fastening kit.

Specifications Per Kit:

- **5 Lifespan Beams:**
Lifespan 100 mm x 30 mm, Tri- Extruded, Aluminium Bamboo Composite Beams
- **10 U-Brackets:**
Powder Coated Aluminium U-Brackets.

*Includes SS316 M6 Fastening Kit Comprising:

- 20 pcs Threaded Rod
- 40 Dome Nuts
- 40 Small Washers

SCREENING KIT COLOUR BRUSHED FINISH

TECHNOLOGY: **eva-tech**
